

## Focus on your business, NOT your exposures.

### PROFESSIONAL INSURANCE FOR MEMBERS OF THE ICF:

Professional Coaches set out to help their clients perform at their best. But as a Coach, you can't perform at *your* best when you're worried about the potential liability you face when engaging with your clients. Since you provide professional coaching in a client-centric environment, you are particularly at risk from claims resulting from demanding clients—even if you're very good at what you do.

At PROLINK—Canada's Insurance Connection, we want you to focus on your job, worry-free. Because when you're at your best, your clients are at their best too. In partnership with the ICF, we've devised a business insurance program tailored to your unique needs.

### You can access the following coverages at unparalleled rates:

- ✓ **Professional Liability Insurance:** to defend you from claims others make against you within the scope of your professional activities. This policy also includes free telephone legal advice.

- ✓ **Commercial General Liability Insurance:** to protect you from claims resulting from third party injuries or property damage. In most cases, there is no additional cost to add a client as an additional insured.

- ✓ **Property Insurance:** to shield your office contents, tools, software, and to provide funds for any business interruption that you may experience as a result of property damage.
